

I WOULD

C F C
Two little boys were starin' at the candy on display
F G
And one whispered to the other with the clerk looking away
F G C Am
Just put it in your pocket no one will ever know
F G
We'll eat it all before we get back home

That little boy just stared down at the candy on the shelf
You could almost hear the conversation he had with himself
Then he gave the clerk a dollar took his candy and his change
Gave half to his buddy and explained

CHORUS

C G C F
No matter who's watchin' no matter who sees
Am F G
Jesus in my heart knows how wrong that would be
F G C F
And when I'm home and mama asks me have you been good
C G C
Though she would never know I would

Now little boys they grow up temptations grow up too
We're livin' in a world that says do what you want a do
What they don't know won't hurt'em is the devil's battle cry
But a godly man knows that is just a lie

CHORUS

No matter who's watchin' no matter who sees
Jesus in my heart knows how wrong that would be
And when the Holy Spirit asks me have you been good
Though the world would never know I would

BRIDGE

F G Am F C G
The man that I am when no one is watchin' is the man I really am

CHORUS

TAG

Though the world might not ever know I would
